

Standard: 5-LS1-2

Develop and use models to describe the movement of matter among plants, animals, decomposers, and the environment.

✓ Answer Key (Teacher Version)

Q1 – Circulatory System (Heart Position)

Correct Answer: b) Slightly to the left of the chest

Q2 – Healthy Plate

Correct Answer: b) Dark green vegetables and beans

Q3 – Digestive System (Diagram Labeling)

Correct Labels:

1. Mouth
2. Esophagus
3. Stomach
4. Intestines

Q4 – Growth Mindset (Short Answer)

Correct Answer (example):

A growth mindset means believing you can improve by learning from mistakes.

Expected ideas: “I can learn from this,” “Mistakes help me grow,” “My brain gets stronger when I try.”

Q5 – Respiratory System (Breathing In)

Correct Answer: a) The lungs take in air and supply oxygen to the blood

Q6 – Brain & Memory (Diagram Labeling)

Correct Labels:

1. **cerebrum**
 2. **thalamus**
 3. **Cerebellum**
 4. **Brain stem**

Rubric with Point System

Scoring

Each question = 2 points.

Total = 12 points.

Multiple-Choice (Q1, Q2, Q5):

- **2 pts = correct choice**
- **1 pt = wrong choice but evidence of correct reasoning in explanation**
- **0 pts = incorrect/no answer**

Diagram Labeling (Q3, Q6):

- **2 pts = all parts correct**
- **1 pt = at least half labeled correctly**
- **0 pts = incorrect/no answer**

Short Answer (Q4):

- **2 pts = defines growth mindset and explains how it helps with mistakes**
 - **1 pt = partial idea (e.g., “It means keep trying” without mention of mistakes/learning)**
 - **0 pts = no answer/incorrect**
-

Proficiency Levels

- **Emerging (0–4 pts):** Recognizes a few parts but struggles with reasoning/application.
- **Developing (5–8 pts):** Some correct answers, partial diagrams, beginning to connect mindset/health ideas.
- **At Target (9–10 pts):** Consistently correct answers, diagrams labeled, short answer includes reasoning.
- **Advanced (11-12 pts):** Fully correct, with extended explanations (e.g., linking healthy foods to blood, giving real-life growth mindset examples).
