UNIT 2: Changes in Matter

Directions: Read the passage carefully. Then, read each question and circle the letter of the best answer.

READING PASSAGE: Observing Matter in Action

During science class, our teacher demonstrated how matter can change. First, she placed an ice cube on a plate and asked us to predict what would happen. As time passed, the ice slowly melted into a small puddle of water. Next, she explained that heat causes solid matter to change into a liquid. Finally, we recorded our observations in our notebooks. By following each step carefully, we were able to clearly see how matter changes when energy is added.

1. How is the passage organized? (RL5.5)

- A. Cause and effect
- B. Description
- C. Chronological order
- D. Comparison

2. Which word signals sequence? (RL5.5)

- A. Slowly
- B. Finally
- C. Matter
- D. Heat

3. How does the organization help the reader? (RL5.5)

- A. It adds opinions
- B. It explains steps clearly
- C. It compares ideas
- D. It gives a summary
