

Name:**MD Test****Measurement & Data Test****5.MD.1**

2 kilometers = _____ meters

7 meters = _____ centimeters

4 feet = _____ inches

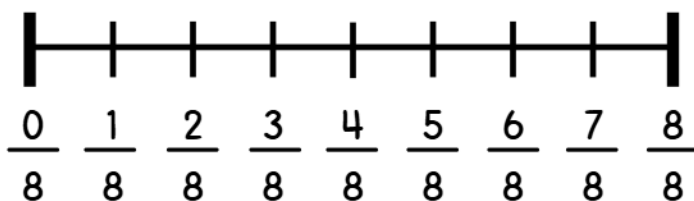

3 miles = _____ feet

5.MD.1

Roger jumped 6 feet, and Ethan jumped 5 feet. How many total inches did the boys jump altogether?

5.MD.2**Length of Jen's Grasshoppers in Inches**

1/4	1/2	7/8
3/4	1/4	1/4
1/2	1	5/8

Length of Jen's Grasshoppers in Inches

1. Plot each measurement on the line plot.
2. What is the most common length of grasshopper? _____
3. How many grasshoppers measured 1/2 inch or less? _____
4. If all the grasshoppers measuring 1/4 inches were added together, what would the total length be? _____
5. What is the total length of all of the grasshoppers? _____
6. What is the average length of the grasshoppers? _____

(Hint: Divide the total length of all grasshoppers by 9.)

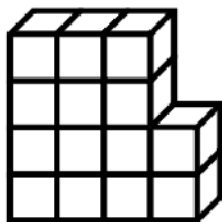

Name:

MD Test

Measurement & Data Test

5.MD.3

Find the volume.

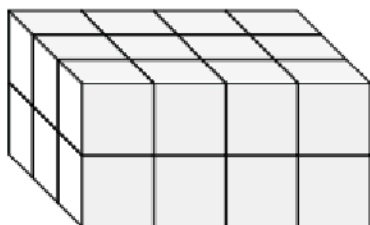

5.MD.3

Use unit cubes to draw a figure that has a volume of 11 unit cubes.

5.MD.4

Find the volume. Each unit is equal to one cubic inch.

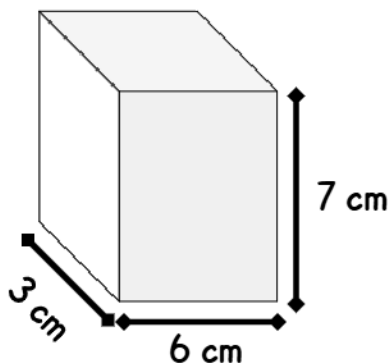

5.MD.4

Abe made a rectangular prism that is 48 cubic inches. What is one set of possible dimensions for Abe's rectangular prism?

5.MD.5

Find the volume.

5.MD.5

Alex's room is 7 feet tall, 8 feet wide, and 9 feet long. What is the volume of Alex's room?

Measurement & Data Test

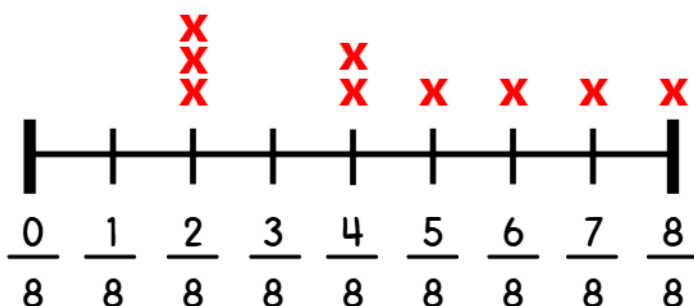

5.MD.12 kilometers = 2,000 meters7 meters = 700 centimeters4 feet = 48 inches3 miles = 15,840 feet**5.MD.1**

Roger jumped 6 feet, and
Ethan jumped 5 feet. How
many total inches did the boys
jump altogether?

132 inches**5.MD.2**Length of Jen's
Grasshoppers in Inches

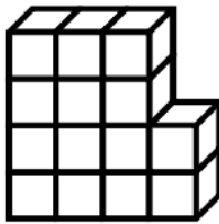

1/4	1/2	7/8
3/4	1/4	1/4
1/2	1	5/8

Length of Jen's Grasshoppers in Inches

- Plot each measurement on the line plot.
- What is the most common length of grasshopper? $\frac{1}{4}$ inches
- How many grasshoppers measured $\frac{1}{2}$ inch or less? 5
- If all the grasshoppers measuring $\frac{1}{4}$ inches were added together, what would the total length be? $\frac{3}{4}$ inches
- What is the total length of all of the grasshoppers? 5 inches
- What is the average length of the grasshoppers? $\frac{5}{9}$ inches

(Hint: Divide the total length of all grasshoppers by 9.)

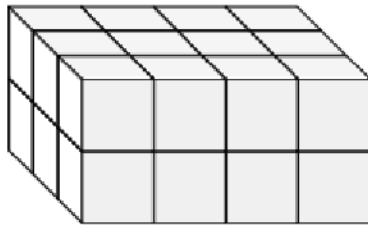

Measurement & Data Test**5.MD.3****Find the volume.****14 cubic units****5.MD.3**

Use unit cubes to draw a figure that has a volume of 11 unit cubes.

Answers will vary.

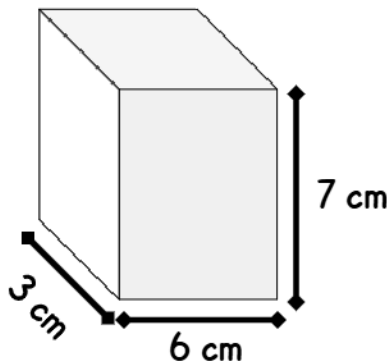

5.MD.4

Find the volume. Each unit is equal to one cubic inch.

**24 cubic inches****5.MD.4**

Abe made a rectangular prism that is 48 cubic inches. What is one set of possible dimensions for Abe's rectangular prism?

Answers will vary.

5.MD.5**Find the volume.****126 centimeters³****5.MD.5**

Alex's room is 7 feet tall, 8 feet wide, and 9 feet long. What is the volume of Alex's room?

504 feet³
