

Awsaj Academy - Grade 5

Physical Science Assessment (Teacher Version)

Answer Key:

Q1 (5-PS1-1): **b) Sugar breaks into particles too small to be seen**

Q2 (5-PS1-2): **c) The weight of matter is conserved**

Q3 (5-PS1-3): **c) Powder C (magnetic)**

Q4 (5-PS1-4): **Yes, a new substance formed (evidence: bubbles/gas – carbon dioxide/temp change)**

Q5 (5-PS2-1): **b) Earth's gravitational force always pulls objects down**

Q6 (5-PS3-1): **The sun – the energy in food =>**

Food chain: sun → plant → cow → girl (answer: energy originates from the sun).

Rubric & Points:

Each question = 2 points. Total = 12 points.

Multiple Choice (Q1, Q2, Q3 & Q5): Speak to student about their choice to award 1/2 pt(s)

- 2 points = correct choice & correct reasoning

- 1 point = correct reasoning but wrong choice or correct choice but wrong reasoning

- 0 points = incorrect/no answer

Short Answer (Q4 & Q6):

- 2 points = identifies new substance formed AND gives evidence

- 1 point = yes/no without evidence OR partial evidence

- 0 points = incorrect/no answer

Proficiency Levels:

- Emerging (0-3 pts): Basic observations, no scientific reasoning.

- Developing (4-6 pts): Some correct answers, beginning reasoning.

- At Target (7-9 pts): Mostly correct with clear reasoning.

- Advanced (10-12 pts): All correct with detailed explanations + real-world examples.
