

Q1 – Multiple Choice (Location)

Question: Where is Doha located?

- a) In the desert center
- b) On the east coast 
- c) In the mountains
- d) Near the north border

Answer: b) On the east coast

Teaching Note: Reinforce that Doha’s location on the coast supported trade, fishing, and later oil shipping.

Q2 – Matching (Cities & Settlement Use)

Question: Match each city with what it is known for.

- Doha → Government & business 
- Al Wakrah → Old fishing village 
- Dukhan → Oil fields 
- Al Khor → Pearl diving / fishing 

Teaching Note: If students draw direct lines or use arrows, allow flexibility if matches are correct.

Q3 – Short Answer (Movement & Scale)

Question: Why did many people in Qatar move from the desert to cities like Doha and Al Wakrah?

Sample Student Responses:

- Emerging: “Because cities are bigger.”

- **Approaching: “Because there were jobs.”**
 - **At Target: “People moved because of oil jobs, schools, and hospitals in the cities.”**
 - **Advanced: “The oil industry brought jobs and better services like education and healthcare, so many left tents in the desert and moved to cities.”**
-

Q4 – Multiple Choice (Land Use – Dukhan)

Question: Which is the best example of land use in Dukhan?

- **a) Tourism resorts**
- **b) Oil and industry** 
- **c) Farming and crops**
- **d) Airports and airlines**

Answer: b) Oil and industry

Teaching Note: Clarify the importance of petroleum and natural gas as drivers of Qatar’s economy.

Q5 – Short Answer (Comparing Regions)

Question: Compare two regions in Qatar (e.g., Doha and Dukhan). How does land use in each depend on natural resources?

Sample Student Responses:

- **Emerging: “Doha has buildings, Dukhan has oil.”**
 - **Approaching: “Doha is for business, Dukhan is for oil.”**
 - **At Target: “Doha grew with trade and services because of its coast; Dukhan grew with oil because of its resources.”**
 - **Advanced: “Doha became a trade/business hub due to its port and capital status, while Dukhan developed oil industries based on petroleum reserves, showing how natural resources shaped both areas.”**
-

Rubric (per question)

Level	Description	Points
Emerging	Gives a simple or incomplete answer, little detail.	1
Approaching	Gives partial answer, with one idea correct but not fully explained.	2
At Target	Gives complete, accurate answer with clear explanation.	3
Advanced	Gives detailed answer, includes examples or reasoning beyond expectation.	4

- **MCQs (Q1 & Q4): 1 point each if correct.**
- **Matching (Q2): 1 point per correct line (4 total).**
- **Short Answers (Q3 & Q5): Use rubric levels.**

Total Possible Points: 15 (A bonus mark – for explanations given, teacher discretion)

Q1 1mark

Q2 4 marks

Q3 4 marks

Q4 1 mark

Q5 4 marks

This totals up to 14 + 1 bonus mark = 15 points
