 UNIT 4: Global Goods

Directions: Read the passage carefully. Then, read each question and circle the letter of the best answer.

READING PASSAGE: How Products Travel the World

Many of the products we use every day are made in different parts of the world. In one country, workers may create goods in factories using local materials. Once finished, the products are shipped across oceans to stores in other countries. This system of global trade allows countries to share resources and provides consumers with a wider variety of choices. Understanding how goods move from factories to stores helps us see how connected the world really is.

1. What is the author's purpose? (RI5.6)
