

Awsaj Academy — Grade 5 (Teacher Version)

Unit: Social Studies Assessment — Historical Thinking and Sources

Standard 1.5.c: Identify cause and effect relationships in history; Identify and use primary and secondary sources to examine the past and present.

Answer Key

Q1. Multiple Choice — Cause and Effect

Correct Answer: b) It brought new jobs and money

Explanation: Oil exports gave Qatar wealth, which funded jobs, schools, and modern services.

Q2. Matching — Primary vs Secondary Sources

- Old photograph of oil workers → Primary
 - Modern history textbook → Secondary
 - Newspaper from 1950 about oil discovery → Primary
 - Teacher’s explanation in class → Secondary
-

Q3. Short Answer — Cause

Expected Response: Oil brought wealth through exports → government invested in infrastructure (roads, schools, hospitals).

Points Awarded:

- 2 points: Clearly states oil exports as the main cause.
 - 1 point: Mentions general wealth or “money” without linking to oil exports.
-

Q4. Short Answer — Effect

Expected Response: Families moved from tents to modern houses, better jobs, schools, and healthcare.

Points Awarded:

- 2 points: Identifies at least two effects (housing, jobs, education, healthcare).
- 1 point: Mentions only one effect.

Q5. Multiple Choice — Using Two Sources

Correct Answer: b) Oil discovery helped Qatar grow quickly into a more modern country

Explanation: Comparison of old oil scenes with modern Doha shows rapid transformation.

Rubric (5 Questions, 10 Points Total)

Performance Level	Description	Points Range
Emerging	Names an event but struggles to show cause/effect or use sources.	0–3 points
Approaching	Identifies either cause or effect using one type of source; answers partly correct.	4–6 points
At Target	Explains both cause and effect using at least two sources (photo, article, textbook).	7–8 points
Advanced	Analyzes across multiple sources with clear argument about cause and effect shaping present.	9–10 points
