

Awsaj Academy - Grade 5

Life Science Assessment (Teacher Version)

Answer Key:

Q1: Correct answer is

c) The eagle eats the bird. Note: caterpillars eat leaves not whole plants

Q2:

Sun -> Sun, Plant -> Plant, Rabbit -> Animal, Boy -> Human.

Q3:

Plants are producers. Animals are consumers. Fungi are decomposers.

Q4: Correct answer is

b) To recycle dead matter into soil.

Q5: Without the sun:

Plants cannot make food.

Animals and humans would run out of food and energy.

This would lead to the collapse of the ecosystem.

RUBRIC:

Emerging:

1-2 answers correct. Limited explanation. Drawings or matches may be incomplete.

Developing:

3-4 answers correct. Some explanation shown. Basic understanding of producers, consumers, decomposers.

Secure:

All 5 answers correct with clear and thorough explanation. Demonstrates full understanding of food chains and energy flow.
