

Math Assessment – Early Numeracy

Student Name: _____

Grade: _____

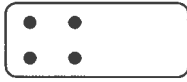

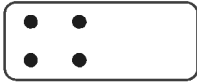

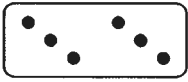

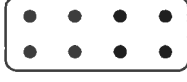

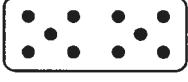

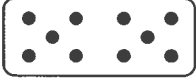

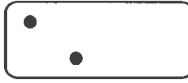

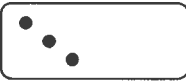

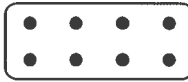

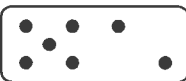

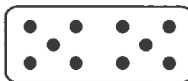

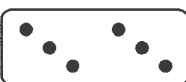

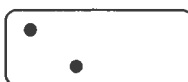

Date: _____

Beginning quantity Discrimination

Practice the first 2 boxes with the student; ***we are going to look at boxes that have dots in them. Some boxes have more dots. We are going to say the number of dots that is more. This is 4*** (point to the box that has 4 dots) ***and this is 8*** (point to the box that has 8). ***8 is more.***

Practice the 2nd set of boxes with the student. Then begin testing. Students must answer the 10 sets and you score the percentage of correct answers. _____%

Beginning Quantity discrimination

Number Identification

Look at these numbers. I'm going to point and say the name of the numbers. Listen to me: 5, 3, 2 (point to the numbers). Your turn. Point and say the name of these numbers.

5	3	42	19	4	_____
36	83	7	20	39	_____
17	30	12	51	10	_____
41	16	77	9	34	_____
8	33	15	13	2	_____
47	14	22	11	18	_____

Total: _____%

Advanced quantity Discrimination

Go over the practice sheet with the student; *we are going to look at the numbers in each box. We are going to say the number that is more. This is 14 (point to 14) and this is 22 (point to 22). 22 is more.*

14 22

56 48

37 28

43 75

Practice the 3 sets of boxes with the student. Then begin testing. Students must answer the 10 sets and you score the percentage of correct answers. _____%

Next Number Fluency

Listen, I'm going to say a number and you're going to tell me what number comes next. So, if I say 3, you would say 4. Let's try one together. 7... what number comes next?

Now I am going to say more numbers. You tell me what number comes next. (Say the first number in the list.)

Next Number Fluency

11 (12)	6 (7)	27 (28)	19 (20)	5 (6)	_____
33 (34)	55 (56)	14 (15)	47 (48)	9 (10)	_____
18 (19)	25 (26)	12 (13)	72 (73)	20 (21)	_____
28 (29)	3 (4)	85 (86)	8 (9)	26 (27)	_____
7 (8)	39 (40)	16 (17)	10 (11)	2 (3)	_____
40 (41)	4 (5)	38 (39)	17 (18)	1 (2)	_____

Total Score: _____

Missing Number Fluency

We are going to look at boxes that have three numbers and a blank and you are going to tell me the missing number. Watch (point to the numbers and the blank): **15, blank, 17, 18. The missing number is 16. Watch: 15, 16, 17, 18**

Your turn. Look at these numbers. Tell me the missing number.

15 17 18

41 43 44

30 40 45

30 40 60

Begin testing. *I would like you to tell me the missing number* (place student sheet in front of the student). **Start here** (point to the first box of number sets at the top of the page). *Go this way* (sweep your finger across the first two rows of number sets) *and say the missing number. Put your finger under the first box* (point). **Ready, begin.**
